Other conditions relative to this agreement:

1. Costs incurred by cooperators not engaged with the host agency or IMT in the fire suppression activities will not be included as a part of this cost share agreement.
2. Responsibility for tort claim costs will not be a part of this agreement. Responsibility for these costs will be determined outside this agreement.
3. Costs for accountable, sensitive, and durable property purchased by each agency will be charged directly to that agency and will not be shared.
4. Non-suppression rehabilitation costs are the responsibility of the jurisdictional agency and will not be shared.
5. Each agency will bill for their costs as outlined in the 2011-2015 Cooperative Fire Agreement billing procedures.

Cost Share Methodology:

All costs through August 8, 2012 will be the responsibility of the USFS due to the fact that high percentage of fire on USFS protection and USFS was the primary manager of the fire until that point in time.

Starting on August 9, 2012, suppression operational costs will be shared by effort expended by protection. Both USFS and DNRC agree on tactical strategies to directly suppress the fire where it can be safely engaged. A confine/contain strategy will be utilized in areas where full suppression tactics cannot be safely implemented. Sharing costs by protection and effort reflects the appropriate suppression efforts required of the cooperating agencies.
